<i>High-school, CBSE, 89.2%</i> | Passed in 2019 |

Experience

IEEE – ITS

(Core committee member)

- Organized various hackathons and interactive games.
- Promoted awareness of new technologies among students, refining leadership and organizational skills.

Projects

Web Based Projects:

Personal Portfolio:

[goto portfolio](#)

- Designed a digital platform to showcase professional work and skills. Utilized HTML and CSS for structure and styling, with JavaScript to enhance functionality and interactivity.

Hidden-Friends Web-based application:

[Friends community](#)

- Developed a web project to help college students connect and share their problems. Built using HTML, CSS, Bootstrap, and JavaScript for added functionalities and interactivity.

App Based Projects:

BMI Calculator- By using Flutter:

[APK File](#)

- The BMI app, which makes BMI calculation effortless. It features a height slider (GestureDetector), weight adjust buttons, and collects gender and age data for personalized results.

Destiny- Storytelling App | Flutter, Dart

- Developed using Flutter and Dart, Destiny offers a portal to endless adventures where users craft tales through their choices, creating unique stories with every decision.

Weather report API based weather application | Flutter, Dart, Weather, API

[APK File](#)

- An application which detects your location and provides a real-time weather using weather API. It retrieves Json data and show it in user friendly interface.

ChattingArea – firebase as a backend | Flutter, Dart, Firebase

[APK File](#)

- Developing a chat app that facilitates user discussions on various tech topics, with distinct sections for easy navigation and domain-specific conversations.

CareerCraft – Guidance providing platform

- Currently working on this project, of which ultimate goal is to provide a complete roadmap to users in order to help achieving their goals.

Skills

Languages: C, C++ (basics), Java, python (basics)

Development: Front-end development (HTML, CSS, JS),

Frameworks: Flutter, Bootstrap

Fundamentals: Data Structures and Algorithms, DBMS, SQL, CN, OS

Certifications & Achievements

-
- My team and I were selected for the SIH hackathon twice from our college.
 - Certified in Google Cloud Platform, Cloud Architecture, Data analytics, Machine Learning, and Artificial Intelligence
 - Under supervision of my team our IEEE-ITS club organized a **successful event** on the emerging power of **ChatGPT, chatbots, and AIs**

I hereby declare that the details furnished above are true and correct to the best of my knowledge and belief.
